Straddling the Equator, 1000km from the coast of Ecuador on the South American continent, these so-called Enchanted Islands emerge from the vast Pacific Ocean in a seemingly haphazard array of rocky outposts, each as individual as the next.
Ecuador, ‘the country of four worlds’, where each region is home to unique cultural and natural diversity and host to some of the favorite tourist destinations on the continent. Go Galapagos - Kleintours can provide tailor-made tours to individual travelers and groups.

The Galapagos Islands were declared a UNESCO Natural World Heritage Site in 1978 followed by the declaration of the islands as a Biosphere Reserve, a whale sanctuary and a UNESCO Natural World Heritage Marine Reserve.

Our coastline is incredibly varied, hosting stunning beaches to sunbath, paraglide, swim or stroll. Humpbacks whales come to visit every year and breach, fluke and flipper-flap to the delight of all. In the Andes, the vast landscapes of paramo and altiplano, surrounded by majestic, snow-capped mountain ranges and volcanoes, rising well over 5000 meters (16,000 feet). To the east, easily one of the most accessible and unspoiled tropical rainforests on Earth, Ecuador’s Amazon region presents an array of National Parks and Biological Reserves home to the highest biodiversity per unit area in the world.

35 years of experience and expertise has helped forge our standing as one of the top cruise operators and Destination Management Companies in the country. We own and operate three expedition ships in the Galapagos Islands: The Galapagos Legend for 100 guests, the Coral I for 36 guests and Coral II for 20 guests. All of our vessels operate with high-safety standards, the utmost reliability and a sincere commitment to safeguard the fragile ecosystem in which we operate. In recent years our entire Galapagos fleet has been substantially remodeled, refurbished and upgraded to offer the finest cruising experience available in the islands, yet our ‘eco-luxury’ approach remains ecologically sound and relaxed. Our year-round departures and itineraries highlight the key visitor sites in the national park and extend for 3, 7, 10 or up to 14 cruise nights. We are committed to bringing to each and every guest a truly extraordinary, uniquely Ecuadorian, traveling experience.

SOCIAL INVESTMENT

Not only does Go Galapagos - Kleintours invest in the betterment of local communities within the islands but we also have some very successful projects on mainland Ecuador. We have a long history of working with the Karanki Magdalena indigenous community to the north of Quito. Through multi-level capacitation, in hospitality, tourism, cooking, health and accounting, visitors are now able to immerse themselves in participatory, cross-cultural, family visits with the community to mutual benefit.

Go Galapagos - Kleintours is a proud partner of Galapagos Conservancy. Galapagos Conservancy works to balance both conservation and community in one of the world’s most remarkable ecosystems. Through support from its members, GC works to preserve, protect, and restore the Galapagos Islands and their extraordinary marine and terrestrial biodiversity through three main conservation programs: Giant Tortoise Restoration, Ecosystem and Species Restoration, and Education for Sustainability. Visit www.galapagos.org to learn more.

MINIMIZING OUR FOOTPRINT

For all of us at Go Galapagos - Kleintours, it is very important that we are environmentally and socially responsible. The details you will find on board are designed such that at every level we can provide our guests with practical solutions to help minimize any ecological impact. Our vessels are certified to the highest national and international standards of good environmental practice.

Our fleet is powered with the utmost respect for the planet ecology. Our aim is to reduce our ecological footprint at every level by as much as possible. In deference to this aim, our vessels are equipped with state-of-the-art technologies in key areas such as waste management, water treatment and energy consumption.

Go Galapagos - Kleintours is a proud member of:

Galapagos National Park Service, an institution key to the well-being of the islands.
Galapagos! The name alone resonates on so many levels. It is surely a must-see destination on any naturalist’s bucket list. Known as the birthplace of the Theory of Evolution and as a Living Laboratory, Galapagos is indeed a place where basic evolutionary principles can be observed first hand. Charles Darwin famously visited the archipelago in 1835 on board the HMS Beagle. He stayed in the archipelago a mere five weeks yet, his profound powers of observation were to change forever the way that we have come to understand how life has evolved. As important as it has proved scientifically the Galapagos will provide any wildlife-loving visitor with a great sense of enjoyment, satisfaction and oneness with the world. We encourage the respectful visitor to come and see the islands for themselves. They are home to an eclectic, incongruous mix of species. We have some of the largest shark concentrations anywhere along with sea lions, fur seals and turtles. The islands are a rich mix of active volcanoes, stunning beaches, a rich ocean and abundant, tame wildlife. In short, Galapagos will not fail to please. Come and see for yourself!
BE AMAZED EVERY DAY
With the first gaze from your cabin’s picture windows, as dawn breaks over the Pacific Ocean, the day begins in earnest. While the stress of a chaotic world fades to a distant memory a new, all-consuming, reality takes shape as our Galapagos adventure develops. Our options are endless and varied, we might find ourselves strolling amongst nesting blue-footed boobies, sitting quietly watching waved albatross in full courtship display or share a quiet corner of a white-sand beach with relaxed sea lions. Each day the ocean beckons. Some will choose to discover her secrets from the novel perspective of a transparent kayak or, perhaps, the comfort of a glass-bottom boat. Others will crave the intimacy of diving her depths with mask and fins, to be at one with penguins, green turtles, cavorting sea lions or large schools of surgeonfish.

All the while we are in the company of expert naturalist guides and our vessel, a 5-star floating hotel that seems to unobtrusively follow us around, hovering in expectation to receive our happy souls back to her comforts. The pool bar, a cold local beer, the Jacuzzi, an al fresco barbecue under a star filled mantle – it really doesn't get much better.
OUR OFFERED ACTIVITIES

Endless options are available for you to explore the islands. All activities are included except where otherwise noted.

HIKING
Twice-daily excursions ashore to the best visitor sites permitted by the national park.
We will always be in the company of an expert naturalist guide.
Walks will concentrate on spending quality time learning about the native fauna and flora.
We will have ample time to observe, absorb and photograph.
For your convenience walking sticks are available for those who wish.

SNORKELING
With snorkeling equipment available on board (at no cost) we invite you to explore the exuberant underwater world.
A naturalist guide will always be present while snorkeling.
Our dinghies remain close at hand for snorkeler’s convenience and safety.
We will offer snorkeling activities once or twice per day on the best snorkeling spots of the archipelago.

SCUBA DIVING*
Designed for adventurous and certified divers looking for the some of best diving sites within the Galapagos Islands.
Now you can combine our scheduled Galapagos Expedition Cruises aboard one of our vessels with fantastic optional diving tours run by a certified professional dive master.
Included: diving equipment, pick-up and drop-off fees, transportation to dive sites, snacks and beverages.
* Optional activity, additional costs may incur.

KAYAKING*
New, transparent kayaks! Watch the fish while kayaking!
All kayaking activities are in the company of one of our naturalist guides.
We supply all necessary kayak and safety equipment.

DINGHY RIDES
We offer guided dinghy tours to extraordinary spots around the islands into otherwise inaccessible areas.

SNORKELING*
We offer ample flexibility to adapt to any special needs or interests of the new traveler. From special activities to dietary needs we have hosted several types of travelers and made their vacation a true tailor-made experience. These are some examples of our programs.

**SPECIAL INTEREST TRAVEL**

**We offer ample flexibility to adapt to any special needs or interests of the new traveler.** From special activities to dietary needs we have hosted several types of travelers and made their vacation a true tailor-made experience. These are some examples of our programs.

**FAMILY FRIENDLY**

Families are welcome on our cruises. Little-ones can relax, play and enjoy a host of activities while on board, complemented by other onboard activities for guests of all ages.

**ACTIVE TRAVELLER**

Ecuador is the perfect country in which to feel adventurous, offering outdoor sports from mild to extreme. In our mainland tours we can add activities such as diving, rafting, biking, trekking and much more! Contact us for a no-obligation design your Galapagos itineraries to be more active if requested.

**SCIENCE & EDUCATION**

Following in Charles Darwin's footsteps, a specialized expert, he or she will enthral us with their in-depth knowledge on science and ecology in a comprehensive and fun-filled excursion.

**SOCIAL PROJECTS & DEVELOPMENT**

Support local communities by being part of a cross-cultural experience in remote and beautiful settings. We offer tours to the Karanki Community, north of Quito, to promote the growth and development of their people.

**HONEYMOON**

The Galapagos Islands are the perfect honeymoon destination, with stunning backdrops, approachable wildlife and quality time for relaxation. We will make it extra special with champagne, a fruit basket, chocolates and a private romantic dinner for two.

**KOSHER**

We offer a kosher-friendly option to all guests who request it. Tableware and a private restaurant is available when needed. We have many years of experience serving kosher guests.

**BIRDWATCHING / ORNITHOLOGIST**

With more than 1,650 bird species in continental Ecuador plus 38 more in the Galapagos Islands, Ecuador is a birdwatcher’s paradise. Travel with a top ornithologist and let him or her share their expertise of this amazingly diverse avifauna.

**PHOTOGRAPHY**

Enjoy unique photographic opportunities, where our guides and a wildlife photographer will help you experience these amazing places through our dedicated photographic itineraries.

**CORPORATE TRAVEL INCENTIVES**

We can organize corporate style travel for your employees or business conferences while cruising the Galapagos Islands, including all the facilities of our on board auditorium. We are also able to customize areas of the vessel to a specific use.

We can organize corporate style travel for your employees or business conferences while cruising the Galapagos Islands, including all the facilities of our on board auditorium. We are also able to customize areas of the vessel to a specific use.
A soothing morning wakeup call signals a freshly prepared al fresco breakfast on deck. Armed with snorkel gear, sunblock and camera we then board our pangas and head towards shore for our morning adventure. Every excursion is different, but might include a visit where we squeeze past boobies nesting on the narrow trail, sit and watch endemic waved albatross absorbed in their intricate courtship ritual, or stare into the eyes of a curious sea lion underwater as it peers into our face mask. Returning aboard for a sumptuous, buffet-style, lunch we are able to enjoy time to relax in the pool, jacuzzi or on deck looking for wildlife and watching the scenery change as we cruise to our afternoon destination. With every new visitor site being different from the last, we can once again expect another uniquely Galapagos experience for the afternoon hike. This could quite possibly be followed by another fabulous snorkel with turtles, large schools of yellow-tailed surgeonfish or even penguins! Some might choose to follow the dramatic shoreline in a kayak or effortlessly glide over the sea bed from the comfort of our motorized glass-bottom boat. Return to the vessel to enjoy a delicious BBQ on deck as the sun sets on the horizon or a sophisticated a la carte dinner. After dinner is a time to enjoy one of our many onboard activities, relax or be outside stargazing.

NATURALIST GUIDES
We fully understand how important your Galapagos experience is to you and as such, our team of naturalist guides has been carefully selected and trained to make it complete. Having been certified by the Galapagos National Park Service, our expert guides are ready to conduct informative walks covering every aspect of biology, geology, oceanography and human history relevant to the islands. Our group size ranges from an average of 12 to a maximum of 16 clients per guide. English or Spanish speaking groups are standard with many other languages available on previous request. Go Galapagos - Kleintours runs a series of specialist conferences, delivered by renown experts, aimed at the naturalist guides to further expand their knowledge in different fields such as geology, biology, photography, ornithology, and other related studies.

ONBOARD STAFF
Every crew member is trained to provide a first-class service with exceptional professionalism. Genuinely friendly individuals, fully dedicated to providing the best hospitality services, with attention to detail and personalized assistance, our crew’s passion and commitment creates a one of a kind experience for our guests.
Providing an ecologically sound cruise definitely does not mean that we have to compromise on luxury!

Go Galapagos - Kleintours is acutely aware of the fragility and importance of the Galapagos National Park in which we have been operating and doing things right since 1983. Some of our eco-friendly practices include that all toiletries provided in our cabins are biodegradable and made from natural components as well as all the cleaning products used during housekeeping. As a complimentary gift, guests will find a thermos in each cabin to be refilled at one of our vessel’s potable water stations, thus reducing the use of plastic bottles.

Our vessels are equipped with sophisticated water treatment plants to desalinate, filter and purify water for consumable use. The decor of our vessels is acquired from sustainable-certified teak plantations and all our food supply is carefully planned to reduce kitchen waste. We aim to live the present and protect the future.

While being pampered on one of our 5-star, boutique cruises, with true local flavor and personalized service, we want you still feel good about yourself in the comforting knowledge that our sustainable practices will preserve the integrity of the islands for generations to come.
SERVICES ABOARD OUR FLEET

CORAL I & CORAL II
Expedition Yachts

The Coral I & II are gorgeous, comfortable, sister yachts offering charming social areas distributed on three decks, with both outdoor and interior spaces allowing you to enjoy an intimate expedition experience in your own way. With a capacity for 36 and 20 guests respectively, the vessels offer open deck areas with a Jacuzzi to make the best of your relaxing time while cruising the islands. The interiors are thoughtfully designed to resemble a private yacht experience in a cozy ambiance. The restaurant serves delicious Ecuadorian and international cuisine even extending to a BBQ dinner on the open-air Moon Deck. They are the perfect cruise vessels for charter groups where the thrill and comfort are guaranteed.
TIME TO RELAX AND ENJOY

Take a break in the on-board Jacuzzi in the Coral I & II and enjoy the best of our service. The open areas will allow guests to be more in touch with the surroundings and have close encounters with the local visitors.

The comfort of a small yacht with easy accessible embarkation area, coziness in every deck, ample social spaces for relaxation, comfort and discovery.
SERVICE AND COMFORT
Social areas, with fine decoration of teak and brass, help make the experience complete with an outstanding onboard service.
BEVERAGE PACKAGES

Make the most of your cruise experience by saving time and money with our beverage packages that offer a range of soft drinks, local beer, a selection of sparkling wines and classic cocktails to be served at our bars and restaurants.

  - **Friday** Highlands Santa Cruz, check-out, transfer to Baltra airport.
the Daphne Islands top off a great visit. From there, we can enjoy our water activities of snorkeling, kayaking or the glass-bottom boat. Expect some wildlife baik including long-finned pilot whales, sea lions, parrotfish, damselfish, rays and sharks. From the coastal area, we depart to the sea lions and marine iguanas of Mosquera Islet where we might even discover some antique ceramic necita left behind by previous settlers.

SAN CRISTOBAL ISLAND: CERRO BRUJO
From here, we first immerse ourselves in the stunning cliffs of the Cerro Brujo and are in a perfect position to observe the flightless cormorants. You might even be tempted by a pinga ride or kayak!

SAN CRISTOBAL ISLAND: CERRO COLORADO
TORTUGA RESERVE
This magnificently steep and rugged section of San Cristobal we visit will host the giant tortoise breeding center “La Galapagos” to observe all stages of the tortoise from egg to adult. One can often see sharks, rays and barracudas.

SAN CRISTOBAL ISLAND: INTERPRETATION CENTER & FRIGATEBIRD HILL
The interpretive center is full of interesting information and offers the perfect overview to the formation of Galapagos which has existed as long as most of its various life stages. The tortoises wander in a semi-natural habitat which lends itself to good photographic opportunities. The aim of the reserve is to help restore populations of the threatened San Cristobal tortoise back into the wild. In town, there are shops to purchase local handicrafts and souvenirs.

SANTA CRUZ ISLAND: EDEN ISLET & BALLENA BAY
Arriving to a small lava dock our first encounters are with sea lions, as they always appear perfectly to the dark rocks. As we walk past large priority pectoral casts we arrive to one of the best areas to view a large beach with Dragon Hill and the tuff cone. Just off the beach path, past a shaded area where flamingos frequently come to feed, we enjoy an overview of the cliffs. Here, we find many of the red-footed booby species such as red ibis, terns, and sandpipers work the muddy edges frenetically looking for food as we continue to regard to a dried, forested habitat where land iguanas nest and burrow.

SANTA CRUZ ISLAND: FAUSTO LIEBERA BREEDING CENTER
Once home to the famous Lonesome George, the last tortoise of the Pinta race, the watering and relocation center is now the home of his long-time guardians. This is the only place where various interpretative buildings are available to the public, including a clifftop where displaying male tortoises in one of the better places to spot some of the seckem Darwin’s finches such as the woodpecker cactus and vegetarian finches.

SANTA CRUZ ISLAND: HIGHLANDS & PITT CRITTERS
In the highlands of Santa Cruz Island we have our best opportunity to interact at close quarters with totally wild, native birds and small mammals. A short walk among these huge, Gobbi, reptiles will also offer the chance for interaction. Expect to see particularly several species of the famed finches. A visit to the collapsed, twin sink holes (Golondrinas) in a stunning forest of the endemic palms are one of the highlights of this area for this local is well known for its diversity of passerine land species.
One of the following options must be completed must be submitted up to 61 days before the tour date. Requirements, final rooming list and passengers’ data to the Galapagos National Park and Government Council issue final confirmation of services and to comply with Easter, Christmas and New Year periods due to limited confirmation according to availability.
